**Packaging:** Standard can sizes are: 50, 100, 125, 150 and 200ml. Individual carton boxes, with or without leaflets are also available. Pre-printed cans.

Aurena Laboratories have developed a broad range of nasal spray products based on sterile saline solution, sterile sea salt solution and natural sea water. The nasal sprays help to restore the moisture to nasal passages irritated by colds or allergies, dryness, pollution and overuse of nasal decongestants.

The seawater/saline solutions is a non-habit forming preservative-free nasal irrigation spray. The spray keeps the nasal passages clean, moisturized, helps relieve nasal congestion and clears the nasal cavity prior to administration of medicinal products. Can be used as frequent as needed.

The hypertonic version including the Xylitol containing versions osmotically decongest the mucosa. The decongestion is effective and convenient for stuffy noses during colds, pregnancy or overuse of nasal decongestants.

With regular use of Aurena Laboratories nasal spray sufferers of rhinitis and sinusitis symptoms will be alleviated and may decrease the use of medicated products.

Non-medicated and non-habit forming.

### Intended use:

To clear and moisturize the nasal mucosa/cavity.

### Clinical claims:

- Relieves nasal congestion
- Alleviates allergy-related symptoms such as nasal congestion
- Cleanse the nasal cavity from allergens, irritants and bacteria
- Enables removal of obstructing matter
- Cleanse the nasal cavity prior to applying medical products
- Suitable for daily use
- Moisturizes the nasal cavity
- Reduces biofilms
- (Hypertonic) Decongests nasal cavity

Fjärrviksvägen 22  
653 50 Karlstad  
Sweden

### Product characteristics:

- Sterile to the last drop
- Preservative-free
- Drug free
- Can be used at any angle
- Seawater contains minerals and trace elements
- Addition of aloe vera and/or chamomile to give a more pleasant cleaning in terms of feeling, scent and taste
- Addition of Xylitol increases osmolality resulting in hypertonic solution without increasing salt concentration
