Shelf life: 3 years from production date.

Packaging: Standard can sizes are: 50, 100, 125 and 150ml. Individual carton boxes, with or without leaflets are also available. Pre-printed cans.

Sparkling Saline Nasal Spray is a new generation of saline and seawater nasal sprays that are infused with microbubbles that reach deep into the nasal passages to help reduce congestion and clear the nose.

Its patented, triple-action formula combines saline (salt + pure water or seawater) with the energetic properties of CO₂ (carbonation) to create a revolutionary rinse designed to cleanse, and neutralize the effects of inhaled particulate matter, irritants, and germs.

Sparkling Saline provides an instant, refreshing, and invigorating treatment experience among consumers who use nasal sprays.

In addition, it has disruptive effects on bio-films and thick mucus, and creates a hostile environment for pathogens. In-vitro data supports Sparkling Saline's effectiveness in reducing nasal bio-films, a cause of upper respiratory infection, chronic sinusitis, and associated with poor patient outcomes in post-operative recovery.

Intended use:

To clear and moisturize the nasal mucosa/cavity. Can be used on children (from 2 years) and adults.

Formulations:

Aurena is offering a range of CE-marked Sparkling Nasal Sprays for Allergy, Cold & Cough, Sinus Relief and Daily Nasal Care.

Sparkling Saline can form the basis for a range of ready-developed, market-oriented, and well-documented products, with short time to market.

Product formulations includes:

- Sparkling Isotonic Saline
- Sparkling Hypertonic Saline
- Sparkling Isotonic Natural Seawater
- Sparkling Hypertonic Natural Seawater
- Sparkling Ringer's Solution
