

Sparkling Saline Nasal Spray

Drug-free saline and seawater nasal sprays with dissolved carbon dioxide.

FACT BOX

Sparkling Saline Nasal Spray

Market segments:

OTC

Product approvals:

Registered according to
MDR (Medical Device
Regulation 2017/745, Class
IIa)

Shelf life: 3 years from
production date.

Packaging: Standard can sizes
are: 50, 100, 125 and 150ml.
Individual carton boxes, with
or without leaflets are also
available. Pre-printed cans.

Discover a new way to care for your nose with Sparkling Saline Nasal Spray. This innovative sterile saline formula contains dissolved carbon dioxide that is released as tiny bubbles upon spraying, delivering a distinctive sparkling rinse experience unlike traditional saline or seawater sprays.

The refreshing rinse helps cleanse and hydrate the nasal cavity, leaving the nose feeling clean and refreshed.

How it works:

The solution is saturated with carbon dioxide and held under pressure in the bag-on-valve container. On actuation the pressure drops to ambient, and the carbon dioxide is released as bubbles at the point of application.

The mode of action is purely physical. The carbon dioxide leaves the nasal cavity with the exhaled air. The product achieves its intended purpose by rinsing, wetting and, in the hypertonic versions, by osmosis. It does not act by pharmacological, immunological or metabolic means.

Intended use:

To clear and moisturize the nasal mucosa/cavity.
Can be used on children (from 2 years) and adults.

Formulations:

Aurena is offering a range of CE-marked Sparkling Nasal Sprays for Allergy, Cold & Cough, Sinus Relief and Daily Nasal Care. The isotonic variants are intended for daily cleansing and moisturising. The hypertonic variants additionally reduce swelling of the nasal mucosa.

Product formulations includes:

- Sparkling Isotonic Saline
- Sparkling Hypertonic Saline
- Sparkling Isotonic Natural Seawater
- Sparkling Hypertonic Natural Seawater

Fjärrviksvägen 22

Sweden

Private label offer:

Sparkling Saline Nasal Spray is available exclusively from Aurena Laboratories. It is a developed and documented platform: a brand owner can bring a carbonated nasal spray to market on an established formulation, container closure system and technical file, without running a development programme of its own.

Aurena supplies the technical documentation supporting the CE marking and, where applicable, the US regulatory route.

Clinical claims:

- Relieves nasal congestion
- Alleviates allergy-related symptoms such as nasal congestion
- Cleanse the nasal cavity from allergens, irritants and bacteria
- Enables removal of obstructing matter
- Cleanse the nasal cavity prior to applying medical products
- Suitable for daily use
- Moisturizes the nasal cavity
- [For hypertonic versions] Decongests nasal cavity
- Reduces biofilms

Product characteristics:

- Sterile to the last drop
- Preservative-free
- Drug free
- Can be used at any angle
- Seawater contains minerals and trace elements
- With daily use Sparkling Saline's triple action formula (water, salt, CO₂) cleanses the nasal cavity
- Sparkling Saline contains tiny bubbles to clear mucus and congestion with a different feeling than regular saline
